RECREATION:

J. ALBENSI

T. LAUREYS

Councilman Albensi had some technical issues with his internet connection. His connection was restored and he gave the following report:

Had concert of the 4th with social distancing and masks with 40-50 people in attendance. There was no police presence though. There was fencing around the gazebo and the playground. He wanted to know if it could be removed. The Mayor explained we need to contact our insurance company about this. Councilman Albensi said he has seen other parks open. Why can't we open ours? There was heated discussion among the Council on this issue. Councilman Sylvester stated Mr. Blakeslee sent out a flyer on how to sanitize the parks. Councilman Sylvester gave a suggestion on a product that can be used to sanitize the park equipment. The majority of the Council wants the parks to be opened.

Councilman Hathaway suggested we send out a notice to the public and we should open the parks. Mr. Bucco explained there were only general guidelines given by the Governor on this subject. He suggested we notify our insurance company that we are opening the parks. The Mayor suggested the Clerk make some signs that can be

posted in the parks and open them up. Mr. Blakeslee will call the DPW superintendent tomorrow about opening these parks. Councilman Hathaway stated we must post a notice what we are using to sanitize the equipment and how often it is being done. Councilman Laureys asked what Mt. Olive is using to clean their equipment. Councilman Hathaway gave explanation on this subject. There was further discussion on this subject. Cones will be needed to block off the area on Water St. where the bands park.

The Council asked what is the status of the use of the ball fields. Mr. Blakeslee explained they have been working on a release form for groups wishing to use the fields. He would like the Borough Attorney to review this form. Councilman Hathaway gave a description of the form Byram is using. Mr. Bucco stated he has forms he has given to Roxbury Township.

The following was sent from the Recreation committee as part of this month's report:

Concerts:

- 1. Will there be a police presence? There was no police presence on Saturday.*
- 2. What is the story with the plastic fencing around the gazebo? We were told that we needed to remove and hide behind the bathroom. However, as there were heavy duty pull ties all around the fencing, we left alone. The band was ok with it, however, honestly looks unappealing from an attendee perspective. Any reason why this isn't taken down for good?*
- 3. I thought the kids area would have been open as the park was open for the concert. I think we need to determine is the park open or not? As long as the crowd is adhering to social distancing, families who bring children are watching them at all times, then could the kids area be open? There should be a sign stating families are responsible for wiping down their own children after playtime is over - wouldn't this work?*
- 4. We need to block the end of Water Street with cones so band members can drive their equipment up on the grass to the gazebo. Seems like the homeowners are using quite a bit of street space.*

Our next concert is scheduled for tomorrow evening, weather permitting. Band is Norton Smull (Blues / Country). Rain Date will be Sunday 6-8

Use of Field – Are Fields Open?

John Bauer shared he is awaiting a call back with regards to "field use" for the Soccer Program. Concern – who's responsibility is it to monitor whether or not teams are adhering to social distancing guidelines? When will someone be calling him back?

Will Rec be able to host the annual Trunk or Treat and Holiday Parade? (may be too soon).

Councilman Laureys also made several detailed comments about the tree ordinance – he feels this ordinance is not needed and is big government at its worst. He feels it is an intrusion on our resident's rights to care for their own property.

Councilman Hathaway commented about Councilman Laureys statement.

Councilman Hathaway stated that residents should not be able to put 'no trespassing' signs on public property. Mr. Blakeslee has removed the signs. He explained this issue is happening along the shoreline of the lake on Koclas Dr. One of these signs was posted near our Arbolino Park. On the bottom of Water St. is another area where there is another no trespassing sign. The resident is not happy that people are stepping on to his property. Councilman Hathaway provided additional details on this issue. The Mayor asked how can we enforce something that is on state property. He agrees with Councilman Hathaway. Mr. Bucco stated that these signs cannot be put on public property. He suggested notifying the state that they will be removed and then taking them down. There was further discussion on this issue.

Councilman Hathaway gave comment on Councilman Laureys comments on sheds and their placement.

Councilman Hathaway wanted to make everyone aware of the trespassing sign situation. There was further lengthy heated discussion on both of these subjects.
