FAIR SHARE PLAN (N.J.A.C. 5:97-3)

Please provide a summary of the Fair Share Plan by filling out all requested information. Enter N/A where the information requested does not apply to the municipality. A fully completed application may serve as the actual Fair Share Plan. A brief narrative should be attached to supplement the information included in the application form. Additionally, the narrative section of the Fair Share plan would fully describe, under a separate heading, any waivers that are being requested.

Determining the 1987-2018 Fair Share Obligation

The following tables will assist you in determining your overall 1987-2018 fair share obligation. For each cycle of the affordable housing need and rehabilitation share, please use the “need” column to enter the number of units addressed in the municipal petition. Where the municipality has received and/or is proposing any adjustments to its rehabilitation share, prior round and/or growth share obligation, use the footnotes providing rule references and follow the procedures for determining the municipal need and/or for calculating any adjustments applicable to the municipality. Enter the affordable housing need as provided by COAH or that results from the adjustment under the “Need” column.

Determining the Growth Share Obligation

All municipalities must complete the "COAH projections" table below. Only municipalities that anticipate higher projections or that are seeking a growth projection adjustment based on a demonstration that insufficient land capacity exists to accommodate COAH projections need complete the corresponding additional table. COAH has published three workbooks in Excel format to assist with preparing this analysis. All municipalities must complete Workbook A. Workbook B must be used when the municipality anticipates that its growth through 2018 is likely to exceed the growth through 2018 that has been projected by COAH and the municipality wants to plan accordingly. Workbook C must be used by municipalities seeking a downward adjustment to the COAH-generated growth projections based on an analysis of municipal land capacity. Workbooks may be found at the following web location:

www.nj.gov/dca/coah/planningtools/gscalculators.shtml.

The applicable workbook has been completed and is attach to this application as Exhibit Appen.

Narrative Section

The Borough of Netcong anticipates that all growth within the Third Round COAH planning period will occur within its two redevelopment areas (Station Area Redevelopment Area and Stoll/Allen Street Redevelopment Area). While the Borough accepts COAH's baseline affordable obligation of 26 units, the final build out for each redevelopment area is still to be determined. It is anticipated that approximately 136 residential units (at a 20% set aside) and 10,500 square feet of non-residential development will occur at the Station Area. The Stoll/Allen Street site is anticipated to yield 112 units (at a 20% set aside). As some of the information within this form cannot be determined at this time, the Borough respectfully submits that at minimum, it will meet its 26 unit COAH obligation. However, considering the potential development yield from its redevelopment areas, the number of affordable units generated will likely exceed its required COAH obligation. It should be noted that the Borough proposes a two-unit accessory apartment program to cover its near term growth share from certificates of occupancy issued between January 1, 2004 and the present. As such, the Borough has indicated within the appropriate area of this form, that a minimum of 28 affordable units will be constructed in Netcong.

Additional Notes:

The Borough is currently in the process of creating a development fee ordinance and affordable housing trust fund for the collection of development fees per COAH rules. The Borough proposes to utilize COAH's model ordinance forms for preparation and adoption of these ordinances. In addition, the Borough is in the process of completing a development fee spending plan in order to set forth the means in which development fees will be spent toward affordable housing programs. In addition to providing a summary regarding the allocation of monies for affordable programs, the Borough also proposes to provide indication of monies set aside for administrative purposes and for rendering units more affordable. The Borough will provide at least 30% of any remaining affordable housing trust fund monies to render units more affordable, and no more than 20% of remaining funds for administrative purposes. Finally, the Borough is in the process of developing an affordable housing ordinance to provide the required controls on affordability, bedroom distribution, low-/moderate-income split and affirmative marketing per COAH rules.
